## PRECISION LASER CUTTING

### Prototypes; Precision Cut Metals & Other Materials

#### LASER CAPABILITIES

Do you have a unique flat pattern profile? Our hybrid LASER supports high mix - low volume projects. When low-cost and speed to market is important, consider Connor's new product introduction (NPI) resources for your precision cutting needs. Various materials can be cut; Mild Steel, Stainless, Steel, Aluminum. LASER processing omits the need for expensive, time consuming custom profile tools.
